

HOW TO MAKE DRIED FIGS

Cut and match captions with pictures

1) Fresh Fig harvesting

Take a large basket, wear a pair of gloves, pick the fresh figs

2) Put them to the sunlight

Place the figs in the sunlight

3) Waiting period

Wait a few days to get dried figs

4) After drying figs

Figs are sent to the factories

5) In the factory

First they wash the figs and dry in sterilized conditions.

Secondly they choose and classify the figs according to their qualities.

6) Third the figs are packed in different ways

7) Finally figs are sent to the markets or exported to different countries
